

## **T-103 TACH ADAPTER INSTALLATION INSTRUCTIONS**

The T-103 Tach Adapter is a modified version of the T-101 Tach Adapter. It allows for correct operation of the tach when the ignition system has been converted to single fire operation.

### **INSTALLATION**

1. Connect the black wire with the white stripe to ground.
2. Connect one black wire to each coil minus terminal (the same terminal the wires from the ignition are connected to.)
3. Connect the white wire to the tach.

The T-103 Tach Adapter cannot be used with the DRL-200 Rev Limiter.
